

The Noack Corporation

Letter of Recommendation (Non-requested)

October 2008

To Whom It May Concern:

Westphall Builders, Mr. Brad Westphall, recently completed a 1,520 square foot, two story casita at our home in the rear yard of our existing residence. We are extremely pleased with the finished product, the quality of construction, the attention to detail, and the commitment to the project by Westphall Builders.

Mr. Brad Westphall, together with his employees and subcontractors, conducted their duties and responsibilities professionally, and always with attention to detail and exceptional service to the client.

Brad's commitment to open communication between contractor and homeowner made our hillside project possible. His willingness to interface with the city on various issues as well as addressing modifications and alterations to the project after construction had begun significantly contributed to the successful results of our project. We could not have obtained the results that we did without Brad's involvement.

In today's marketplace you often do not find someone as committed to what they do and what they say they're going to do as Brad.

We would absolutely recommend Westphall Builders and Brad Westphall to anyone considering a construction project. Should you have any questions or require further information please feel free to contact us.

Thank you,

Warren W. Noack
President
